PROFILE

Passionate Junior React Developer dedicated to creating captivating user interfaces. Eager learner, ready to dive into new challenges. Thrives in collaborative environments, bringing fresh ideas to the table. Committed to crafting seamless digital experiences that leave a lasting impression. Ready to make waves in the world of front-end development. Currently working as freelancer Work from home.

WORK EXPERIENCE

NextJs : *recently developed a websites for my client in nextJs with tailwind css. url (https://www.neticx.com/)*
other url (https://next-js-ai-web-app.vercel.app/)
rcurrently working on this project (https://xoibit-recreate-with-next.vercel.app/)

React Developer   *11/2023 - Present*

Project Name: seek global network (This project now we develop from scratch in nextjs currently working on it)

- This project is an earnings-based platform where users generate income by viewing ads, engaging in surfing activities, and launching their ad campaigns upon registration. As a running project, it was entrusted to me to ensure its seamless operation. Upon assessment, I discovered several bugs within its dependencies. The project's tech stack includes ReactJS, Material-UI, Express, Node.js, Ethereum, and MetaMask integration etc. Currently, it is in progress with three developers coordinating efforts, with myself included as part of the team, diligently addressing these challenges.
- Developed new features and enhancements for the application using React
- Integrate Phantom wallet.
- Implemented REST APIs to connect the application to the backend services.
- Currently working on Optimizing REST API calls to reduce load times resulting in a 15% increase in page speed.
- Debugged and resolved application issues to improve user experience, currently working on this project
- online url (***https://www.seekglobalnetworks.com/***)

Frontend Developer Intern

Ali Solutions (Project based Company)   *1/2023 - 4/2023*

- I work as a frontend web developer, collaborating closely with experts. I've developed numerous landing pages and complete frontend for ecommerce and CMS websites. Additionally, I specialize in converting Figma designs into fully functional code.

Certification

* **Understanding the basics of react (10pearls) 2024**

* **API testing with Postman (10pearls)**

* **Web Development Masterclass (Udemy)**
  26 hours course, HTML, CSS, JS, JQuery, Bootstrap, Php, MySQL, Git, HTTP, etc
